

Project Name

Miller Cut-Off Rd. Deer
Park, TX (Harris Co.)

Completion Date

Fall 2007

Location

East Harris County, Texas
Hwy 225 Petro Chemical Corridor

Owner

Harris County, Pct. 1
Houston, Texas 77208-1429
Mr. Kenneth Calloway
713.991.6881

Construction / Entire Project Cost

\$2.5 million dollars

Firm's Responsibility

ECMS conducted environmental and construction support services in residential commercial and industrial settings. The Miller Cut-Off Rd. is located in an industrial setting within the Gulf Coast Petro-Chemical Complex. This project required an environmental site assessment Phase I and Phase II. The sub surface investigation would involve probing through a maze of below grade petro-chemical piping, ECMS utilized the latest technology to locate and identify piping. ECMS also coordinated its operations with state and local authorities for a safe and productive worksite. This project would improve traffic mobility and safety at various intersections along Miller Cut-Off Rd. It includes lane widening and expansion, traffic signal upgrades and underground utility improvements.
